## SolidWorks 2014 Installation

Installation time: ~40-80 min depending on network connection and computer speed

- 1. SolidWorks 2014 installation files are located here: F:\install\Solidworks\2014-2015
- There are two folders. 'SolidWorks 2014 x64' is for 64-bit operating systems. 'SolidWorks 2014' is for 32-bit operating systems. The x64 version is what most students will want. Also, open the "key" text document.

- 4. If the User Account Control window pops up asking permission for the program to make changes to the computer, click **Yes**.
- 5. Choose "Individual" and click next.

6. Copy the serial number from the "key" text document you opened earlier and paste it into the Solidworks installation window. Click next.

7. On this screen you can customize exactly which parts of Solidworks are installed. The defaults are fine for most cases so click **"Install Now"**.
